STUDENT SENATE

F14RS

SGR No. 37

BY: SENATORS TERREBONNE, KORE, DE GRAVELLE

A RESOLUTION

TO URGE AND REQUEST LSU INFORMATION TECHNOLOGIES TO REDESIGN THE LSU MOBILE APP

PARAGRAPH 1: Whereas, the app currently fails to support access to scheduling for the Testing Center and Health Center appointments, as well as the ability to quickly access and monitor TigerCash and Paw Points; and

PARAGRAPH 2: Whereas, students should have instant access to scheduling via the LSU Mobile app to allow for cohesion between personal class schedules and available times for testing and Health Center appointments; and

PARAGRAPH 3: Whereas, allowing for a cohesive appointment scheduling system will eliminate scheduling conflicts and excessive wait times at participating locations; and

PARAGRAPH 4: Whereas, the current version of the LSU Mobile app is in need of updating its software and information including, but not limited to, the LSU maps.

PARAGRAPH 5: Therefore, be it resolved that the Louisiana State University Student Senate urges and requests LSU Information Technologies to redesign the LSU Mobile app to better accommodate student scheduling for regular activities into a cohesive system, and

PARAGRAPH 6: Be it further resolved that a copy of this resolution be transmitted to Pam Nicolle, Executive Director of User Support and Student IT Enablement; and Cynthia M. Hadden, Executive Director and Deputy CIO of University Information Systems.

PARAGRAPH 7: This resolution shall take effect upon passage by a simple majority (one-half plus one) vote of the LSU Student Senate and signature by the President, upon lapse of time for presidential action, or if vetoed by the President and subsequently approved by the Senate, on the date of such approval.
